Errors and Omissions Insurance Policy: Are You Covered?

PMO and PPM administrators face many challenges but rely on policies, which only cover their liability. It is not enough. They need robust solutions to address underlying technical issues.

Who needs errors and omissions insurance?

PMO Directors and PPM Administrators are critical players in their organizations. They handle tons of data, sensitive projects in Project Online, clients' personal information. Minor errors and omissions in portfolio attribution, project scheduling, or resource allocation can have far-reaching consequences. Loss of mission-critical data can even stall the project.

Who needs errors and omissions insurance?

If your error harms clients financially, information in your care is leaked or stolen, they can claim damages for negligence. You can also get in trouble with stakeholders or leaders for project delays or missed deadlines, whether it is your fault or not. Technical issues increase the risk of errors. So, you have Errors and Omissions Insurance Policy. But are you covered? PMOs and PPMs need more. Prevention is better than cure. You need solutions to protect Project Online.

What is data loss prevention software?

[FluentPro G.A. Suite](#) is an all-in-one toolkit for managing the lifecycle of Microsoft Project Online environments. It is designed to help organizations simplify configuration and data management, implement governance practices for Microsoft Office 365 PPM. It runs on Microsoft Azure guaranteeing data security and confidentiality with robust encryptions. With this software, you can perform a full or partial backup by schedule or on-demand. Users can create multiple backup plans and restore lost projects, configurations, and SharePoint contents quickly. Users can access disaster recovery support via a simple and user-friendly UI.

The screenshot shows a configuration window titled "Schedule Backup Time". It includes a section "Choose the mode of operation" with three radio buttons: "Daily" (selected and highlighted with a yellow box), "Weekly", and "Monthly". Below this is a section "Daily Schedule Settings" with two dropdown menus: "Time" set to "12:00 AM" and "Time Zone" set to "(UTC-05:00) Eastern Time (US & Canada)".

Apart from Microsoft data loss protection, G.A. Suite also allows PMOs and PPMs to deploy and move configuration changes to Project Online PWA.

You can:

-  Create a backup schedule.
-  Perform an on-demand backup.
-  Restore data from a backup copy.
-  Create a full copy of the PWA and PWA configuration on Microsoft Azure storage.
-  Copy project plans and sites from one PWA to another.
-  Generate PWA configuration documentation.
-  Compare two PWA configurations.
-  Copy PWA Configuration from one PWA to another.

Why should you contact the FluentPro team today?

Errors and Omissions Insurance Policy can cover fines and damages if data protection system is installed. But it does not protect from client lawsuits. E&O will not restore trust with disgruntled clients, protect your reputation, or compensate for lost time.

The FluentPro team can help you address specific technical issues in your PMO or PPM processes that increase the risk of errors and omissions. G.A. Suite can help you streamline your workflows and attain error-free, time-efficient, and cost-effective processes. You can rely on the expertise of the FluentPro team to overcome technical issues, maximize organizational time, protect your interests, and increase the business value.

Get started with **G.A. Suite** today requesting a **demo** from FluentPro team.
